## **Vodii Partners with CertifID to Protect Its Customers from Wire Fraud**

*Expanded offering safeguards wire transfers up to \$1 million*

**Austin, TX, October 18, 2019** - Vodii today announced a new partnership with CertifID, the leading identity verification and wire fraud prevention platform, to make the CertifID software platform available to Vodii customers through its TxM WireSafe module. In addition to the protected wire transfer communication TxM WireSafe already provides, CertifID will give Vodii customers the option to authenticate the identity of all parties involved in the wire transfer and obtain up to \$1 million in wire transfer protection.

The TxM Software Suite is rooted in security and built upon its Collaboration Fabric that provides a secure and holistic transaction management framework that inspires safe, efficient, easy-to-use, and always-on information sharing that is consistent with your business & communication practices.

“Incorporating CertifID into TxM was a natural partnership since our goals are 100% aligned,” said Matt Regan, Founder & President of Vodii. “As home buyers embark on one of the biggest investments of their lives, they want to be assured that their transaction is safe from fraud -- CertifID’s million-dollar guarantee is simply unparalleled.”

CertifID’s technology protects all transaction participants from wire fraud. “Cyber perpetrators continue to threaten real estate transactions by diverting wire transfers through elaborate social engineering schemes,” said Tom Cronkright, Co-Founder and CEO of CertifID. “We applaud Vodii’s commitment to security and taking wire fraud protection to the next level through our partnership.”

### **About Vodii**

[Vodii](#) is a software company comprised of a dedicated group of technologists that believe the future of technology within the title & escrow industry will be based on security, efficiency, and simplified UX. Vodii’s flagship product is the **TxM Software Suite**, a white labeled, SaaS, web-based transaction management application that is designed to simplify and secure communication between closing agents and all stakeholders of a real estate transaction. TxM creates an easy-to-use environment that allows all parties to efficiently collaborate, exchange information, and close securely. For more information on our product, visit [www.vodii.co](http://www.vodii.co).

### **About CertifID**

Based in Grand Rapids Michigan, [CertifID](#) is a real-time identity platform for real estate, mortgage and title industry professionals to authenticate parties in a transaction and securely transfer wiring information. Every transaction protected by CertifID is guaranteed up to \$1,000,000 against fraud. Founded in late 2017, CertifID has protected over \$4 billion in wire transactions for residential and commercial real estate, nationwide.
